### DETAILED ACTION

1. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, the features defined in lines 5-7 are not clear.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1 and 4 (as best understood) are rejected under 35 U.S.C. 102(b) as being anticipated by Brown (US 1,263,520).

Brown discloses a wiring connecting device, as recited in the instant claims, including link bar 1 that is inherently capable of functioning as a permanent coupler as claimed, structure 10 supported by link bar 1 and readable as a wiring box provided with front and rear receptacles and crossing connecting cables 14, and support member 12 for supporting cables 14.

4. Claims 2-3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Daugherty discloses a permanent coupling link bar for railway vehicles.
